## INDUSTRIAL ROOFING SYSTEM

AN ISO 9001-2008 CERTIFIED COMPANY

### COLOR COATED ROOFING SHEETS

We are a prominent manufacturer and supplier of Superior Roofing Sheets. Our product array comprises Roofing Sheets such as Metal sheets, Steel Decking Sheets, Wave Tile Profile Sheets, Curved Profile Sheets, Clip Lock Profile Sheets, Color Coated Sheets and many more items. The products are manufactured using optimum quality raw material and with sophisticated technology. Our product range is highly acknowledged among clients for its high quality standards and reliable performance.

#### Description:

Galvalume steel is zinc aluminum coated steel offering high corrosion resistance. This alloy coating comprises of 55% aluminum 43% zinc and 1.5% silicon. These Coated Sheets offers a superior barrier protection against varied atmospheric conditions. The coating class is AZ-150, which means 150 gms /m<sup>2</sup> minimum coating mass total mass of both sides

#### Types of Color Coated Roofing Sheets

We are engaged in manufacturing and supplying a wide assortment of **Wave Tile Profile, Curved Profile, Clip lock Profile Sheets**. These sheets are highly durable in nature and are designed to withstand the elements of nature and to last long in adverse environments. Our product range is designed to tide over extreme weather conditions and have excellent corrosion resistance and superb heat reflectors. These are examined on defined parameters to eliminate all the flaws and are available at affordable prices.

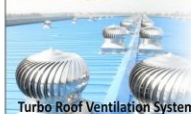

## Pre Engineering Works

We provide superior quality services for Pre-Engineered Buildings to our esteemed clients. In order to render these services our professionals use premium quality raw material and latest technology. Professionals of our team have immense domain expertise which makes them competent to meet the specific requirements of our clients and cater them accordingly. These services are provided to our clients at reasonable prices. We also take the work order for fitting.

### All Type of Ventilators

Owing to our expertise, we manufacture and supply a wide gamut of Turbo Roof Ventilation System. Our product range is designed with utmost care to protect from rain. These Turbo Roof Ventilation System are considered as one stop solution to problems related to Heating, Smoke, Fume, Smell, Poor ventilation systems in Sheds, Warehouses, Auditoriums or any enclosed areas. Our complete product range is also examined on defined parameters to eliminate all the flaws.

### Polycarbonate Roofing

Our enterprise is placed among the prominent manufacturers and suppliers of a broad array of Polycarbonate Roofing Sheets. These are highly suited for high impact architectural and safely applications like glow-signs, skylights, skylights, exterior canopies and roof glazing. The sheets are manufactured using the best grade raw material and latest techniques in compliance with the set industry standards. These sheets are acknowledged among clients for their features like high durability, low maintenance and excellent finish. Moreover, these are available in transparent, colored or tinted forms.

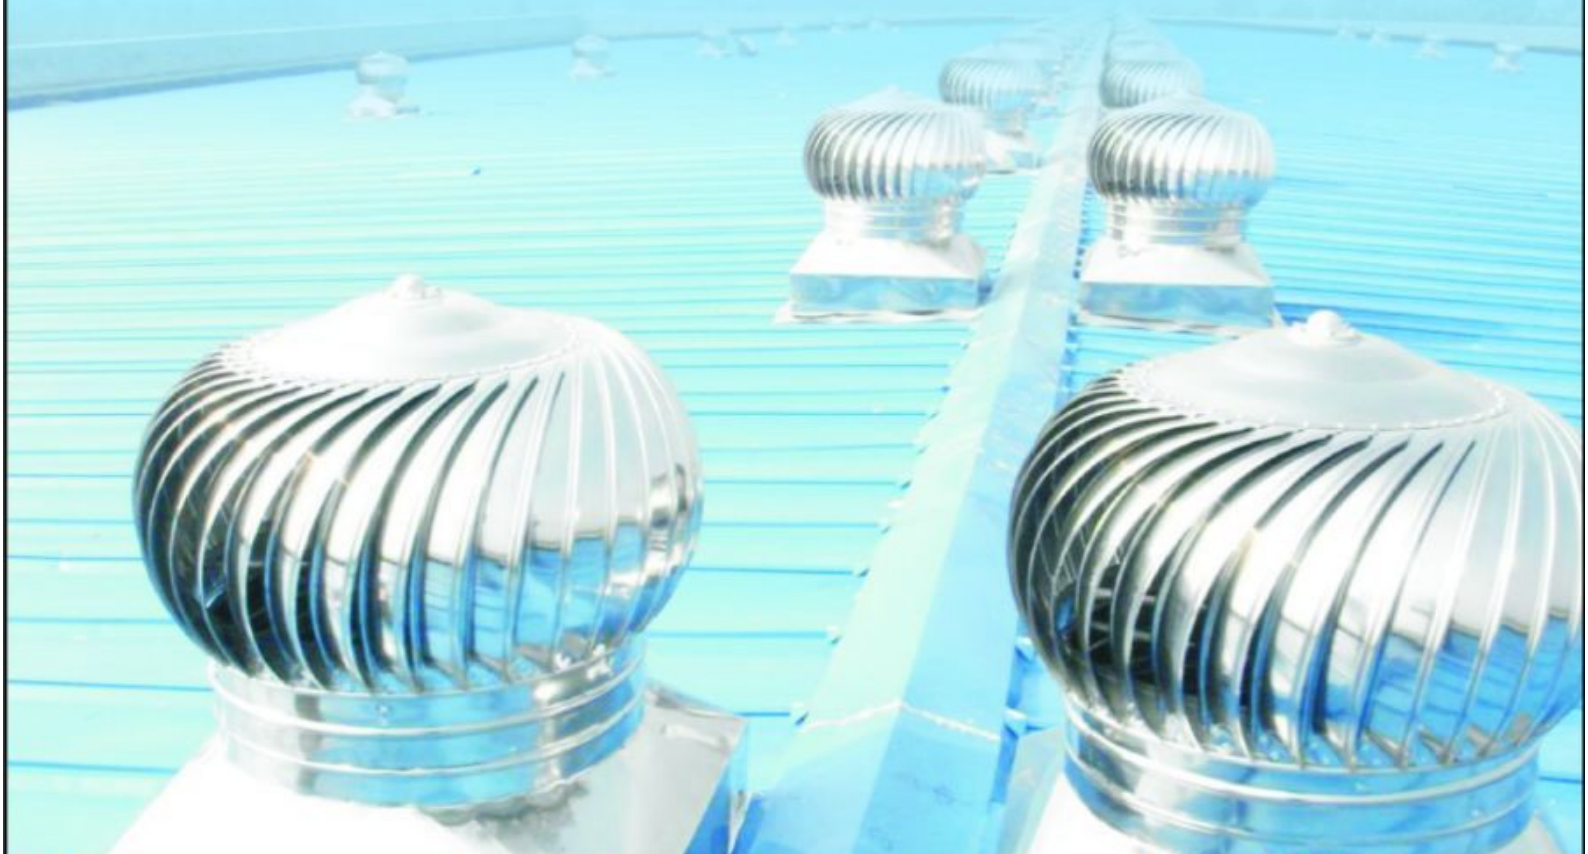

### Louver System and FRP Products

We hold expertise in manufacturing and supplying an extensive array of Louver System. These Louver System are capable of meeting the various inlet requirements for natural ventilation systems. Our product range is manufactured using graded raw material and with advanced technology in adherence to the international quality standards. These Louver System are treasured for their excellent finish, durability and longer service life. We supply these systems at reasonable prices.

# IRS INDUSTRIAL ROOFING SYSTEM

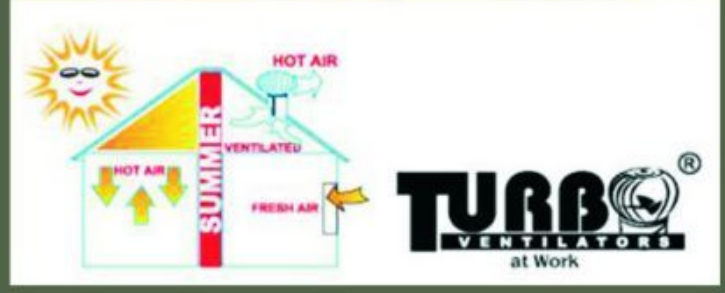

**Longest selling ventilators in the market**

**Most reliable ventilators in the market**

**Most experienced company with more than 12 years of experience**

## Beat The Heat & Save Money Use Turbo Ventilators !

### Efficient. Silent. Economical.

-  Works on wind energy
-  10 Years Weather and storm proof with 10 years warranty
-  Sturdy aluminium and stainless steel construction
-  100 % depreciation available
-  Year round ventilation with zero running cost
-  Turnkey installation service by the company
-  Easily adaptable to any profiled roof and maintenance free
-  Strong & light weight construction

- No Operating Cost ←
- Runs on wind power ←
- Weather & Storm proof ←
- Adaptable to any roofing ←
- Economical & Ecological ←
- Maintenance free ←
- Optimum 28" diameter ←
- No Noise ←
